

I am Curious Faith!

Jn 1: 45ff.

Curiosity – ghdd - is eagerness to know and experience a truth that will change the way I understand life and myself.

The effect of real curiosity is risk, the risk of a commitment to discover the truth.

***When God incites our curiosity, there is
requirement to commitment, to “come and
see.”***

Jesus builds His church in such a way that His church is to be eternally curious about who God is, what God does and the way God works.

***Legitimate curiosity is as wary of deception as
it is hungry for truth.***

It is the commitment to the adventure that launches us to change and to grow.
