

Becoming Champions of Hope!
Romans 4:16ff

Hope – ghdd - is the positioning of my trust in something that stabilizes me so that I can cross the gap, by faith, from my present condition to the future that I work toward.

Hope in God is the ground upon which the power of Love gives rise to faith and sustains that faith.

Losing hope is a foundational loss. Gaining hope is a foundational necessity.

There are hopes that we need to hope against!
