

Faith-Full
Thinking, Feeling and Doing

Hebrews 11

Faith in God is a confidence not only that he exists but that he is reliable enough to trust.

**Sin started with a loss of faith,
therefore God's redemption was
through restoring faith.**

Our personality and church background often lead us to reduce the essence of faith to thinking, feeling or doing.

Our faith is rooted in Christ, the perfectly faithful one. Therefore our whole lives—thought, feeling and action—are to grow up into him.

**Wherever there is a Vision, an
Intention and specific Means (V.I.M)
we can expect transformation.**

**Faith-full *thinking* is for our ideas,
mental images and patterns of
thought to be saturated with God's
reality.**

Faith-full *feeling* is growing in emotional maturity, setting our ultimate desire on God himself.

Faith-full '*doing*' is submitting our will to God, trusting that his way leads to our true good.
